

Item Code 2324 = Porter, Install or De-rig Estimate < 1hr

Item Code 2324 is an hourly estimate of site time for install or de-rig of services or equipment.

In the absence of drawings, photographs or video we estimate on a time basis with actual time onsite updated post event. Time on site starts at the curtilage, site entrance, or any security check point linked to the event.

Vehicular access must be unencumbered to the delivery and collection point, and that access routes in and out of commercial venues have parking provided, suspended parking bays, off road parking, or loading bays, or vehicle bays that are of a hard standing nature, void of soft ground, mud, sand, snow, ice, gravel, steps and stairs.

Access through domestic premises must be disclosed by the hirer on booking. Non-disclosure through domestic premises is at the risk and the express instruction of the hirer. Claims for damage or losses whatsoever will not be considered by the hire company.

Parking and traffic management is the responsibility of the hirer. Delays or additional portorage caused by blocked vehicle access, impassable access roads is likely to add time to our estimate which is updated post event.

Driver overrun, parking tickets, additional time on site for whatever reason will be added post event with outstanding balances cleared via the Deferred Deposit we hold on authorisation.
